OFFICIAL ENGLISH EXPLANATORY ANNEX
Judicial Record Certificate (Adli Sicil Kaydı) — Republic of Türkiye

1. Document Identification

This document is an official Judicial Record Certificate issued by the Republic of Türkiye, Ministry of Justice, General Directorate of Judicial Records and Statistics (Adalet Bakanlığı, Adli Sicil ve İstatistik Genel Müdürlüğü). It is the Turkish equivalent of a national criminal record extract (comparable to a UK DBS basic check, a Swedish belastningsregisterutdrag, or a Norwegian politiattest).

2. Result of the Judicial Record Check

The certificate states two findings, both expressed in Swedish and Turkish on the original document:

Result line (original, Swedish + Turkish) Plain-English meaning

“Personen med ovanstående identifieringsuppgifter har inte någon uppgift i brottsregister.”

(TR: Yukarıda kimlik bilgileri bulunan kişinin adli sicil kaydı yoktur.)

The person identified above has no entry in the current criminal record.

“Personen med ovanstående identifieringsuppgifter har inte någon uppgift i brottsregisters arkiv.”

(TR: Yukarıda kimlik bilgileri bulunan kişinin adli sicil arşiv kaydı yoktur.)

The person identified above has no entry in the archived criminal record (which would otherwise list expunged or time-barred entries).

3. Plain-Language Summary

As of 07 June 2026, the Republic of Türkiye holds no criminal record and no archived criminal record for the named individual. The certificate was generated through the official e-Government portal (turkiye.gov.tr) and is verifiable against the Ministry of Justice systems via the barcode and QR code printed on the original first page.

The Swedish-language edition of the certificate was selected at issuance because this document is intended for international institutional use and review by Scandinavian counterparties. Turkish translations are provided beneath each Swedish line on the original document.

4. Verification

The authenticity of the original certificate can be confirmed by any third party at the official e-Government verification address printed on the source page:

<https://www.turkiye.gov.tr/belge-dogrulama>

Verification requires the barcode number printed on the original. That number has been redacted in this published copy to protect against fraudulent re-issuance or identity impersonation; the unredacted certificate is held on file and can be produced directly to authorised institutional reviewers on request.

5. Redaction Notice

In line with GDPR (EU 2016/679) and KVKK (Turkish Law No. 6698) data-minimisation principles, the following fields have been redacted from the published copy:

- Turkish National ID number (T.C. Kimlik Numarası)
- Certificate barcode and verification code
- Issuance timestamp serial

All redactions are reversible only on the holder's side. No content material to the legal result of the certificate has been altered, obscured, or removed.
